

- **Deposit Bonus Promotion**

**THE CREDIT BONUS IS A BONUS OFFERED BY IFX BROKERS™ HOLDINGS (PTY) LTD
(HEREIN "THE COMPANY")
TO ITS CLIENTS UNDER THE FOLLOWING TERMS.**

1. Definitions and Interpretations

The following words shall have the corresponding meanings:

Account:

Any standard MT4 account of yours, opened with us for the purposes of executing Transactions with us in foreign exchange Commodities, CFDs or other Financial Instruments.

Bonus

50% Deposit Bonus on first time deposit and 50% on recurring deposits subject to prevailing cumulative maximum bonus allowance.

Bonus Arbitrage

Bonus arbitrage is defined as opening up opposite sides of the trade i.e. The buy and sell at the same time or within thirty minutes of each other. Strictly Prohibited.

Bonus Removal

Complete bonus will be removed on withdrawal and margin call. (Refer Margin Call Level Definition below)

Clients:

For the purposes of the bonus offer, a client is eligible to participate in the Bonus Scheme, if:

- a. Holds an IFX Brokers Standard Account; and
- b. He/she must have completed the age of 18 or the legal age applied in his country of residence or otherwise must not be considered as a "minor" in his country of his residence.

Currency of the Account:

Hedging

Not allowed in the same account and strictly prohibited in two correlating accounts

Leverage:

A ratio in respect of Transaction size and initial margin. 1:200 ratio means that in order to open a position, the initial margin is two hundred times less than the Transactions size.

Margin Required:

In order for us to accept an opening Order from you, your Available to Trade Balance will normally be required to contain sufficient resources to cover the margin required for the Orders that you wish to place (Margin Required). Total margin required is the aggregate of margin required for your working Orders and open trades (Total Margin Required). Margin requirements defined in the Contract Specifications per instrument.

You should maintain a Margin Covered Percentage of at least 100% at all times. In the event that you are not covering 100% of Margin Required you will need to add funds to your Account or reduce your working Orders or Open trades.

Margin Call:

Margin Call is when your Margin Level has fallen below the required minimum level (the "Margin Call Level").

Margin Call Level

Unless we advise you in writing differently, the Margin Call Level for your Account is **50%**. IFX shall issue margin calls when the margin level is below **50%**. Please note that this event is notified by means of an MT4 alarm whereby the colour of your margin requirements will change to red – indicating you have reached margin call level. Any credit bonus will be removed when an account reaches Margin Call Level.

Margin Close Out Level (Stop Out):

Stop Out Level is when your Margin Level falls to a specific percentage (%) level in which one or all of your open positions are closed automatically ("liquidated") If your Margin Covered Percentage is at or below the Margin Close Out Level, this is an Event of Default under our Terms of Business and we will be entitled to cancel any of your working Orders and/or close all or any of your open trades without notice to you. The process that we normally put into effect upon your Margin Close Out Level being triggered is set out below.

If your Margin Close Out Level is triggered, we shall in the first instance cancel all of your working Orders in an attempt to reduce your Total Margin Required on your Account. Where this action does not result in Margin Covered Percentage moving above the Margin Close Out Level, we shall then start the process of closing all your open trades in Instruments that are available for trading at that time. If the closure of those positions does not remove the deficit on your Available to Trade Balance in full, we shall then proceed to start the process of closing any remaining open trades on your Account when trading resumes in those instruments. We may undertake these actions without notice to you. Unless we advise you in writing differently, the Margin Close Out Level for your Account is 30%.

Maximum Bonus:

The maximum amount that can be active in this bonus promotion is USD 5000 or its then current equivalent in any of the other available base currencies.

Negative balance protection:

Negative balance protection is a precautionary measure that IFX take to safeguard our clients. Negative Balance Protection is an automated adjustment of the account balance to zero in case it became negative after a stop out. Forex accounts are highly leveraged which may potentially increase risk to lose more than invested. However, with the IFX Negative Balance Protection traders cannot lose more than deposited.

Strategies

Forex trading strategies are the use of specific trading techniques to generate profits from the purchase and sale of currency pairs in the forex market.
